

Bomanite Toppings Systems

PROJECT PROFILE

ALAMEDA CROSSING

PROJECT INFORMATION

PROJECT SPECIFICATIONS/INFORMATION

The Paddock Pools showroom at the Alameda Crossing shopping center is an interior project that utilized the Bomanite Thin-Set product. Paddock Pools designs custom pool decks and backyard patios. For their showroom they wanted to achieve a dynamic first impression for their clients; their goal, designing an indoor pool that would showcase an array of possible flooring products. Bomanite Thin-Set was used throughout the showroom. The pool deck area utilized the Ashlar Slate Pattern with Sand Color Hardener and a flash of Harvest Amber Release Agent. The open floor area of the showroom consisted of the Canyon Stone Pattern with Sand Color Hardener and alternating Harvest Amber and Rust Brown Release Agents. The hues of red and brown complimented the Ashlar Slate and Canyon Stone patterns to create the natural beauty within the store thus achieving the extraordinary splendor found in the Arizona landscape.
