Example Payment Factors...

Table with 5 columns: Amount Financed, Term (Months) 24, 36, 48, 60. Rows show factors for \$10k to \$19K, \$19K to \$49K, and \$49k and over.

To arrive at a payment amount, multiply financed amount by the above factors:
Scenario 1: \$5,000.00 x .03413 = \$170.65 for 36 months w/\$1 Payoff!
Scenario 2: \$15,000.00 x .03413 = \$511.95 for 36 months w/\$1 Payoff!
Scenario 3: \$30,000.00 x .02216 = \$664.80 for 60 months w/\$1 Payoff!

Offer does not include sales or other taxes. These payments reflect average financial history and can be higher or lower based upon other factors. To customize a payment quote for your situation, multiply your own financed amount by the appropriate factor for your requested term.)
