SLATE TEXTURE

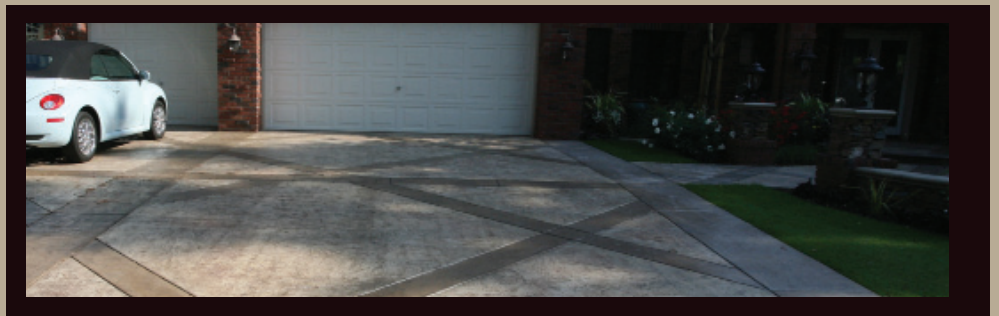

The Bomacron Slate Texture can be used in a variety of applications from interior residential settings to outdoor driveways and walkways.

The Bomacron Slate Texture is a versatile texture of “riven” slate with moderate depth of relief but rustic, random veining found throughout. Appropriate for all applications where consistent depth of impression and texture with random veining running throughout is desired. The Bomacron Slate Texture can also be set in a wide range of patterns from a random ashlar pattern to a random stone version with multiple tool designs and sizes.

Only Bomanite architectural concrete provides the beauty of natural stone with the durability and affordability of concrete. With more than 200 creative patterns and an endless palette of colors, Bomanite offers an unmatched range of innovative design options to turn ordinary concrete into something extraordinary.
