

The American Institute of Architects Continuing Education Systems

AIA/CES Registered Provider Program Summary Handout

Provider: Bomanite

Length: 1.5 hour

Program #: 211011

Credits: 1.5 LU hour

Program: Exploring Design Flexibility of Architectural Concrete Surfaces

Description:

The program examines the latest techniques and trends in decorative concrete flooring, including overlays, micro-toppings and textured/imprinted options. Participants will learn about a variety of interior and exterior application methods, novel systems and inventive products used when working with the versatile medium of concrete; a medium that is sometimes underestimated in its potential. The program will present the fundamentals of integrating personality and product, ultimately illustrating what's possible when working with concrete.

Learning Objectives:

After completion of this course, participants will be able to:

- Understand color plastic and cured concrete techniques.
- Understand texture plastic and cured concrete techniques.
- Understand specific colored and textured overlay (toppings) renovation techniques.
- Identify and compare design techniques utilizing decorative concrete solutions.

How Taught:

The CES facilitator utilizes a PowerPoint or PDF slide presentation focusing on the different colored and textured decorative concrete techniques and systems to provide a comprehensive précis of current trends and alternatives available in the decorative concrete industry. The program includes images of a variety of decorative concrete projects from around the world. It will be an interactive session that encourages feedback throughout to help reinforce the learning objectives.

A/V Needs:

Electrical power and screen for the PowerPoint or PDF slide presentation. The CES facilitator will supply the laptop and projector.

Target Audience:

Architects, specifiers, designers, builders, owners and other design professionals. The audience size can be one-on-one or numerous attendees. The program meets the needs at every experience level and provides time for questions and answers.

Facilitator Qualifications:

All Bomanite and Bomanite Licensed Contractor CES facilitators have been trained on CES guidelines and presentation skills. In addition, they receive continuous in-depth training in the field and are considered industry experts.

Costs:

There is no cost to bring this program into your firm or chapter meeting.

About the Provider:

Bomanite, the leader in the architectural concrete paving industry for over 50 years, has a network of specially trained and licensed franchise partners in more than 70 countries worldwide to service your architectural concrete paving and flooring needs.
