

The American Institute of Architects Continuing Education Systems

AIA/CES Registered Provider Program Summary Handout

Provider: Bomanite

Length: 1 hour

Program #: 2F1011

Credits: 1 LU hour

Program: Innovative Applications for Architectural Concrete

HSW: Yes

Description:

The program examines decorative concrete application techniques, design options and benefits over other flooring and paving systems. Participants will learn about a variety of application methods, innovative systems and inventive products used when working with the versatile medium of concrete. The program addresses the many ways to add texture, color and design elements to new or renovated hardscape surfaces.

Learning Objectives:

After completion of this course, participants will be able to:

- Understand and name four applications for concrete paving and flooring options.
- List three reasons to design with architectural concrete.
- Identify specific coloring techniques for concrete.
- Identify specific systems or decorative concrete options.
- Compare benefits of utilizing concrete over other flooring/paving options.

How Taught:

The CES facilitator utilizes a PowerPoint or PDF slide presentation focusing on the benefits of utilizing concrete as a flooring option including the cost-effectiveness of the product, the time-efficiency of the process, and the overall functionality that decorative concrete provides. The program is an interactive session that encourages feedback and questions throughout to help reinforce the learning objectives.

A/V Needs:

Electrical power and screen for the PowerPoint or PDF slide presentation. The CES facilitator will supply the laptop and projector.

Target Audience:

Architects, specifiers, designers, builders, owners and other design professionals. The audience size can be one-on-one or numerous attendees. The program meets the needs at every experience level and provides time for questions and answers.

Facilitator Qualifications:

All Bomanite and Bomanite Licensed Contractor CES facilitators have been trained on CES guidelines and presentation skills. In addition, they receive continuous in-depth training in the field and are considered industry experts.

Costs:

There is no cost to bring this program into your firm or chapter meeting.

About the Provider:

Bomanite, the leader in the architectural concrete paving industry for over 50 years, has a network of specially trained and licensed contractors in more than 70 countries worldwide to service your architectural concrete paving and flooring needs.
