

Bomanite Toppings Systems

PROJECT PROFILE

PRIVATE RESIDENCE CAR COLLECTION

PROJECT INFORMATION

Bomanite Toppings Licensee, Concrete Solutions Plus, located in Colorado, installed a brilliant white decorative concrete garage floor for the homeowner's private car collection. Bomanite Florspartic 100 in the color white was chosen to complement this large car collection, creating a sleek bright white overall design. Bomanite Florspartic 100 is a fast-curing two-part polyaspartic aliphatic polyurea sealer/finish coating for both decorative and protective applications. Bomanite Florspartic 100 is known for its outstanding penetration and bond strength, UV resistance and excellent color/gloss retention, providing excellent impact, abrasion, and chemical resistance. Suitable for high traffic interior or exterior applications, Bomanite Florspartic 100 is ideal for walkways, commercial applications, industrial facilities, swimming pool decks and garage floors. Available in several standard colors, including white, black and custom colors.
