

Bomanite Imprint Systems

PROJECT PROFILE

FRESNO FAIRGROUNDS ENTRANCE

PROJECT INFORMATION

Bomanite Licensed Contractor, Heritage Bomanite, was asked to join the team of contractors creating a newly designed entrance to the Fresno Fairgrounds. Heritage Bomanite worked closely with Wildwood Pools in designing the layout and materials to be used. The Bomacron pattern Large Sandstone was chosen for the surface of the entrance. To provide a natural look Bomanite Sand Color Hardener and Natural Gray and Bomanite Franciscan Red Release Agent were chosen for the color option. Seat walls and caps were also installed along with the custom rock and small water features that were created.
