PROJECT PROFILE

PRIVATE RESIDENCE POOL DECK – OMAHA, NE

PROJECT INFORMATION

Bomanite Imprint Licensee, Stephens and Smith Construction worked with the homeowner to select the overall design, patterns and colors for their patio and pool deck renovation. The homeowners existing concrete and stoops had a spray texture overlay and stenciled brick borders in a pinwheel design. The owners had seen stamped concrete and were interested in changing their deck and giving it a fresh new look.

Stephens and Smith demo'd the existing deck and was able to dispose of all the rubble on site, saving the homeowner in disposal fees. The demo did take a few extra days due to the uneven real brick that was discovered under the overlay. Once all was removed, Stephens and Smith was able to regrade and place the concrete in four pours that had to be transported 160' to 200' due to the length of the driveway and expansive 20 acre lot. The concrete was stamped with a Slate Texture and 8" Brick Border for an updated clean and inviting backyard space.

Stephens and Smith Construction provides quality products installed by quality people. With two locations in Nebraska, Stephens and Smith offers a variety of decorative concrete products and systems, and are dedicated to the highest standards of quality and service.
