

Bomanite Exposed Aggregate Systems

PROJECT PROFILE

BELMAR RETAIL DEVELOPMENT WALKWAYS

PROJECT INFORMATION

PROJECT SPECIFICATIONS/INFORMATION

Client Need: The designer of Belmar wanted to create a subtle but very specific look for the paving around the retail development that would enhance the architecture and give a sense of continuity to all of the city blocks involved.

Solution: Bomanite Licensed Contractor Colorado Hardscapes, Inc. not only had the project management capabilities for this massive project, but the craftsmanship to create the paving details inherent in the design.

Results: SandScape Texture® by Bomanite finished concrete paving creates the walkways, plazas, and some of the medians throughout the Belmar development. (The curb and gutter work is by others.) The "V" cuts in the concrete mirror the architecture of the buildings.
