

Bomanite Toppings Systems

PROJECT PROFILE

PRIVATE RESIDENCE – POOL HOUSE – RALEIGH, NC

PROJECT INFORMATION

PROJECT SPECIFICATIONS/INFORMATION

Description: Bomanite Licensed Contractor, Carolina Bomanite Corp gave this pool house project a custom "slate" look. By using the existing concrete slab as the palette, Carolina Bomanite was able to apply the Bomanite Patene Arctectura System by starting with a "base" of Bomanite Chemical Stain - Pine. Hand installations of several stain colors were applied using several application methods of spraying, brushing, misting and ragging to resemble a "hand" glazed slate tile pattern. A finish diluted overspray of Bomanite Chemical Stain Caribbean Blue tops off this 2-day stain installation. Sawcutting the existing surface into 2' x 2' squares on a diagonal way for 'Stone' colored Grout to be applied for that "hand laid" look. After cleaning, the surface was sealed with an application of Bomanite Hydrocoat followed by Bomanite Floor Finish.
