

Bomanite Custom Polishing Systems

PROJECT PROFILE

TARGET FIELD – MINNESOTA TWINS STADIUM

PROJECT INFORMATION

Bomanite Custom Polishing Systems are the right choice for heavily trafficked areas. Polished concrete floors provide durability and offer exceptional resistance to slipping, abrasion and impact.

The architects for the Minnesota Twins Stadium - Target Field wanted a flooring surface that could incorporate design and strength. The Legends Club Level of Target Field showcases Minnesota's rich history of Twin Hall of Famers and the Met Club and was in need of a surface that could feature an artistic design to help accent larger-than-life art pieces of Kirby Puckett, Harmon Killebrew, Rod Carew and other historic Twins ballplayers.

Bomanite Licensed Contractor, Concrete Arts, provided the solution with the Bomanite Custom Polishing System, Patene Teres. By applying Bomanite Concrete Dyes in multiple colors and dilution levels and polishing the floor area up to a level 2 sheen, Concrete Arts was able to create a surface that allowed for design flexibility and most important functionality. As one of the highest trafficked areas at Target Field, polished concrete provided durability, low maintenance and overtime will hold up better and cost less than any other flooring option.

PROJECT DETAILS

LOCATION

Minneapolis, MN

INSTALL COMPLETED

April 2010

SQUARE FEET

28,000

BOMANITE SYSTEMS

Bomanite Custom Polishing Systems - Patene Teres
Bomanite Concrete Dye - Blueberry, Maple Syrup
