

## Bomanite Custom Polishing Systems

### PROJECT PROFILE

ASHLEY FURNITURE

#### PROJECT INFORMATION

---

#### PROJECT SPECIFICATIONS/INFORMATION

---

Project Description: Bomanite Custom Polishing Systems are the right choice for heavily trafficked areas. Polished concrete floors provide durability and offer exceptional resistance to slipping, abrasion and impact. The Ashley Furniture store received a polished showroom floor that created a stunning success. Bomanite Licensed Contractor, Jeffco Concrete Contractors, created elements of decorative scoring in random circular and diamond patterns to define display areas and provide an element of abstract design that would complement any style of furniture. By applying Bomanite Concrete Dyes in multiple colors and polishing the floor area up to a level 2 sheen, Jeffco Concrete Contractors were able to create an extremely elegant atmosphere.
