

Bomanite Custom Polishing Systems

PROJECT PROFILE

HEIGHTS RECREATION CENTER

PROJECT INFORMATION

The City of Richardson recently opened the doors of the brand new, state-of-the-art Heights Recreation Center. The 25,000 square foot facility boasts a regulation-sized basketball court, a game room, large fitness and cardio areas with brand new equipment, a large classroom space, a preschool room, an aerobics studio and WiFi Internet access throughout.

Bomanite Licensee, Texas Bomanite was called in to polish 2,500 SF of lobby and corridors. They installed a 2" integrally colored topping slab in a brown color. The scoring of the topping was done in accordance to the Architect's (Brinkley Sargent Architects) design, which is seeking a LEED Silver Certification for the project. The floors were diamond polished to a 1,500 grit finish and Malt Brown Bomanite Concrete Dye was added during the polishing process to deepen the intensity of the color.

Bomanite Stabilizer Pro and Bomanite VitraFinish were installed to give the floor a complete Bomanite Custom Polishing treatment. A polyurea joint sealant was installed as well. The final step in the scope of work was floor protection and a final burnish was completed before the early summer opening.
