

## Bomanite Pervious Concrete Systems

### PROJECT PROFILE

#### CLOVIS COMMUNITY HOSPITAL

### PROJECT INFORMATION

The Clovis Community Hospital, located in Clovis, California received a much needed emergency vehicle access road. The access road was recommended by the local fire department due to the need to get fire trucks close to an area that is difficult to reach in case of an emergency.

The Bomanite Grasscrete System was selected for the project due to it's strength, durability and aesthetically pleasing Grasscrete Molded Pulp Formers were utilized for this project providing sustainability with their 100% recycled content and ability degrade over time into the sub-soils. The project was completed within one day due to the Molded Pulp Formers ease of use. The day was spent on preparing the area to receive the Grasscrete, laying the formers with reinforcement and then pouring the concrete. The former tops were removed and the concrete washed down the second day.

### PROJECT DETAILS

#### LOCATION

Clovis, CA

#### CLIENT

Clovis Community Hospital

#### GENERAL CONTRACTOR

Clark Construction

#### INSTALL COMPLETED

August 2009

#### SQUARE FEET

5,200

#### BOMANITE SYSTEMS

Grasscrete - Molded Pulp Former

#### NAME OF BUSINESS

Emergency Vehicle Access

#### BOMANITE LICENSED CONTRACTOR

Heritage Bomanite

5651 E. Fountain Way

Fresno, CA. 93727
