

Bomanite Exposed Aggregate Systems

PROJECT PROFILE

RESIDENTIAL POOL DECK – EDINA, MN

PROJECT INFORMATION

Striving for something with a "wow" factor, the homeowners of this remarkable pool area in this upscale suburban Twin Cities retreat wanted something that was both unique and functional with crisp clean lines. They contacted Bomanite Licensee, Concrete Arts and chose Bomanite Revealed for their project. Notice the sharp edges of the square concrete coping along with the stark brightness the white color encompasses. Blending a unique material with the natural stone retaining walls was the driving force behind the final selections and the result was a spectacular success.
