

Bomanite Exposed Aggregate Systems

PROJECT PROFILE

THE EMERSON LUXURY APARTMENTS

PROJECT INFORMATION

Completed in 2014, this luxury residential tower includes a restaurant, café, main lobby, tech center, office space and fitness center. Bomel Construction worked with designers, Rios-Clementi and GC Pankow to provide walkways, paths and outdoor entertaining area with a sophistication that matches the world class architecture. Bomanite Revealed was installed in two finishes. One with a white base, beach tint and seeded with mother of pearl shells aggregate and the other with a gray base, black tint and Inyo white rock to match the upscale lifestyle.

The Emerson brings elegance to downtown LA living and boasts over 250 residential units ranging in size from studios to one- and two-bedroom layouts. The Emerson promotes a warm sense of community within an urban landscape.

Rising 20 stories above the epicenter of Los Angeles' arts and culture scene, The Emerson unifies architecture, exquisite design and a marquee location. Panoramic views of the entire city from residences and amenity spaces create an awe inspiring setting for city living and instill a feeling of connectivity to downtown Los Angeles.
