

Bomanite Exposed Aggregate Systems

PROJECT PROFILE

TANDY FAMILY YMCA

PROJECT INFORMATION

The Tandy Family YMCA opened in 2016 with more than 100,000 square feet dedicated to the pursuit of healthy living and community building; this state-of-the-art facility is built on the grounds of the 50-year old Thornton Family YMCA, one of the anchors of midtown Tulsa.

In collaboration with OU Physicians Center for Exercise and Sports Medicine, and OU Physical Therapy, the Tandy Family YMCA features three brand-new pools, new interactive fitness equipment, an all-seasons Splash Park and playground, with a focus on prevention and education.

Bomanite Licensee, Bomanite of Tulsa worked with GH2 Architects to choose the [Bomanite Exposed Aggregate System](#) for the exterior multi-use space. With the emphasis on ADA compliance and universal design, both Bomanite Revealed and Bomanite Sandstone Texture were incorporated. Bomanite Revealed was chosen for its ability to provide vibrant color, a Custom glass blend was created to compliment and unify the safety surfaces around the play areas. Bomanite Sandstone Texture in Gobi Desert was installed to provide for a more natural feel, its slip resistant/traction coefficient, appearance and longevity.
