

Bomanite Imprint Systems

PROJECT PROFILE

GREAT WOLF LODGE RESORT - CALIFORNIA

PROJECT INFORMATION

The Great Wolf Lodge Resort is the largest family of indoor water parks that opened in 2016 in Garden Grove, California. The 12-acre family entertainment resort has a hotel and conference center and is California's first and only indoor water park. 18,000 square feet of retail and dining options make this truly a grand resort. Working with Ridge Landscape Architects, Bomanite Licensee Bomel Construction, identified that the Bomanite Imprint Systems were designed to fit with the incredible theme and very unique architecture. Multiple uses of the Custom Bomanite Boardwalk stamp were installed with a Bomanite Adobe Tan Integral color and Bomanite French Gray Release Agent on the exterior grounds of the resort. The Bomanite Boardwalk pattern was given a rustic wood texture to compliment the woody feel of the architecture. The Custom Bomacron Boardwalk Pattern was framed with opposing Bomanite Integral Colors and Bomanite Release Agent borders. The Bomacron Alicante pattern, resembling the flow of water or an incoming wave, provided a unique and interesting walkway that was seeded with 3/8" white china rock in dark gray and exposed with a light sandblast using the Bomanite Alloy Finish. The Bomanite Imprint System adds a distinctive architectural touch to any project, together with the durability to stand up to the toughest traffic loads and environmental conditions. For over six decades, Bomanite Imprint Systems have offered homeowners and design professionals a virtually limitless palette of colors, textures, and patterns to choose from.
