

Bomanite Exposed Aggregate Systems

PROJECT PROFILE

HARD ROCK HOTEL AND CASINO

PROJECT INFORMATION

The Hard Rock Hotel & Casino, a four-diamond property, located in the Tulsa, Oklahoma area made waves with the opening of their new resort swimming pool. The latest addition, along with the opening of a luxury spa, provides hotel guests an opportunity to relax and refresh. At 100 feet long and more than 3,400 square feet, the adult pool features a Baja shelf that holds 20 in-pool lounge chairs coupled with a 20-person hot tub.

At poolside, guests have the opportunity to rent luxury cabanas and day beds and utilize loungers and fire pits. There is also a live entertainment area and a full-service bar offering a variety of frozen drinks and color-changing, bottoms-up centerpiece drink dispensers. The new pool area is a contemporary design created by [Howell and Vancuren Landscape Architects](#), [Allison Landscape & Pools](#) and Bomanite Licensee, [Bomanite of Tulsa, Inc.](#) The almost 10,000 square feet of pool deck design is comprised of various geometric shapes installed by Bomanite of Tulsa, Inc. with two [Bomanite Alloy Exposed Aggregate System](#) Colors, Nickel Gray and Gobi Desert.

[Bomanite Alloy](#) is an architectural exposed concrete with varying exposure depths using non-native quartz and decorative aggregates that are surface seeded on concrete. With its' low life cycle cost, Bomanite Alloy is a win for hotel casino pool decks, exterior walkways and access paths, providing improved wear resistance for light-to moderate-duty vehicular or foot traffic that comes with the daytime hard rock club goers, wedding venues or corporate events and concerts.

The Bomanite Exposed Aggregate Alloy finish specified, provided a perfect slip resistant, durable, low maintenance surface for the well-known gaming hotel, creating a cohesive deck area that sparkles with the nighttime glitz and glam of a casino with a look that is complimentary to the design vocabulary of the project. Bomanite Alloy is a suitable Bomanite Decorative Concrete choice for architectural luxury designs, posh, sleek and stylish!

The Hard Rock Hotel & Casino Tulsa joined the exclusive ranks of the best hospitality establishments in the country, earning the American Automobile Association's most coveted distinction, the Four Diamond Rating. According to AAA, a Four Diamond property is one that is "refined, stylish with upscale physical attributes, extensive amenities, and high degree of hospitality, service and attention to detail." It's no wonder that the Hard Rock Hotel & Casino was recently voted Tulsa World's Best in the World Hotel 2019!

Bomanite of Tulsa, Inc. won the 2017 Best Bomanite Exposed Aggregate Project Bronze Award for their stunning work on the Hard Rock Hotel Pool Deck.
