PROJECT PROFILE

TANGER OUTLETS FORT WORTH

PROJECT INFORMATION

The [Tanger Outlet Center](#) added a new location to their list of ultimate shopping experiences. The recent open-air outlet mall is located in far North Fort Worth, Texas, just south of the Texas Motor speedway. Working with the architectural firm [Adam & Associates](#), known for their unique combination of world class experience and small town personality, they put together a plan that incorporated the time proven, durable Bomanite Decorative Concrete for the exterior of the outlet walkways.

The Fort Worth mall features 70+ hi-end stores such as top fashion designers Cole Haan, Michael Kors, Kate Spade, and Steve Madden along with snack-centered eateries like the Great American Cookie Company that brings shoppers from all over Texas. Over 181 million shoppers a year visit the 39 Tanger Outlets located throughout the U.S. and Canada. Each center has a unique theme to its shopping destination with upscale architectural features and play areas for children. Texas-inspired artwork in the courtyards such as a life-sized steel sculpture of a longhorn and a fire pit were incorporated along with port-style rooftops over many of the stores to protect shoppers from the Texas seasonal weather. Adams & Associates worked with Bomanite Decorative Concrete Craftsmen, [Texas Bomanite](#) to choose the system appropriate for the architectural design.

The [Bomanite Imprint Systems](#) with stamped, stained and colored concrete with high end finishes accentuating the store fronts and Texas-style artwork featured at many of the pedestrian intersections was the product of choice. Before the project was underway, Texas Bomanite produced 6 different mock-ups to provide a visual for the general contractor, [Mycon](#) and the architect to demonstrate exactly what each pattern and color would look like to help aide in the decision-making process.

Texas Bomanite installed over 145,000 square feet of architectural concrete that incorporates 4 different patterns ([Bomacron Canyon Stone](#), [Bomacron Medium Ashlar Slate](#), [Bomacron Random Boardwalk](#), [Bomacron 6" x 6" Granite Setts](#)) and 2 textures ([Bomacron Used Brick Texture](#), [Traditional Broom Finish](#)) with multiple colors of Integral Color, Color Hardener and Release Agents each adding different interest and ambiance to the Texas themed look. The entire project was sealed with Bomanite HydroLock for additional durability. This mega installation of Bomanite Decorative Concrete offers versatility in design, long-term durability, low-maintenance, weather-resistant features and environmentally friendly attributes for the Tanger Outlet and earned Texas Bomanite The Best Bomanite Imprint Systems Project Bronze Award for their styled fashionable walkways for shoppers seeking retail therapy.
