

## Bomanite Custom Polishing Systems

### PROJECT PROFILE

#### CHASE OAKS CHURCH

### PROJECT INFORMATION

Chase Oaks Church is a non-denominational Bible church with 4 campuses in far north Dallas Fort Worth area, the newest being the Fairview campus. The Fairview campus is nestled against a creek, with large windows exposing the view. The 36,000 square foot building is composed of 4 major areas: auditorium (which seats 500), the Kid Zone, administration and a youth center. The décor is warm and inviting, accented by natural elements such as wood, steel and stone.

To complement the natural theme, Texas Bomanite used the Bomanite Custom Polishing System VitraFlor to polish 16,950 square feet of concrete, exposing very large black aggregates. The aggregate was all locally sourced and contrasts nicely with the tan of the concrete, contributing to the warmth of the interior decoration.

The General Contractor on this project was MEDCO Construction. For more information about MEDCO, visit their website at [www.medcoconstruction.com](http://www.medcoconstruction.com). For more information about Chase Oaks Church, visit their website at [www.chaseoaks.org](http://www.chaseoaks.org).
