

## Bomanite Toppings Systems

### PROJECT PROFILE

#### THE CITADEL OFFICE BUILDING

### PROJECT INFORMATION

Owners of The Citadel office building worked with Bomanite Licensee [Colorado Hardscapes](#) and Dig Studio (designer / LA) to provide a solution to an unsightly wall and discolored and deteriorated exterior granite paving. The key – as always – was to stay within the budget. Instead of installing new granite, Bomanite Sandscape Textured concrete was the chosen material used for the patio area. Installing two different colors, uncolored concrete and Sunset Rose Integral color with black silica sand, the patio was poured and then saw cut into "tiles" to replicate the granite.

The wall, rather than being removed and replaced, was covered using the [Bomanite Micro-Top ST system](#). Micro-Top ST can simulate the [Bomanite Sandscape Texture Exposed Aggregate System](#) by spray applying the material using different colors to achieve a multi-dimensional texture. The new area surpasses the aesthetic appeal of the surrounding granite.

Bomanite Micro-Top ST has excellent adhesion and weather resistance that is perfect for applying over almost any clean, correctly prepared and primed surface including concrete, cement block, tile, metal and wood. Providing a tough, slip resistant water-retardant coating that substantially reduces water penetration, freeze-thaw scaling and concrete carbonation, Bomanite Micro-Top ST is the most durable and versatile product for spot accent areas, wall coverings, up the side of a building or asphalt street sections going above and beyond the benefits of granite installations.

### PROJECT DETAILS

#### LOCATION

3200 Cherry Creek South Drive, Denver, CO

#### CLIENT

The Citadel

#### PROJECT DESIGNER

Dig Studios

#### INSTALL COMPLETED

October 2016

#### SQUARE FEET

600

#### BOMANITE SYSTEMS

Patio - Bomanite Sandscape Texture; Walls - Bomanite Toppings Systems Micro-Top ST

#### BOMANITE LICENSED CONTRACTOR

Colorado Hardscapes, Inc.

9000 E Chenango Ave. Suite 200

Greenwood Village, CO 80111
