Architectural Concrete Solutions

PATTERNS

ADOQUIN TILE

The Bomanite Adoquin Tile pattern allows you to create an interesting entryway, outdoor walkway or patio designed with 12" x 12" individual stones containing intermittently placed 5" diamonds providing a distinguished look of inlaid tiles. The texture resembles a heavy diagonal linear slate. Bands of natural or colored textured concrete can be added to the layout for a unique design.

The Bomanite Adoquin Tile Pattern can also be set or custom made in a different texture, such as English Sidewalk Slate (shown below).

Only Bomanite architectural concrete provides the beauty of natural stone with the durability and affordability of concrete. With more than 200 creative patterns and an endless palette of colors, Bomanite offers an unmatched range of innovative design options to turn ordinary concrete into something extraordinary.

Realize the possibilities with Bomanite Imprint Systems.
