

Bomanite®

Your Single Source For Innovative Architectural Concrete Solutions

PATTERNS

SHIFTING SAND TEXTURE

Mock-UP

The Shifting Sand Texture is part of the Erosion by Bomanite series, textures created to emulate nature at work. The Shifting Sand Texture was used at the TCU Amon G. Carter Stadium to replicate the Trinity River. The Shifting Sand tools have been created in 7 different tools in multiple sizes to allow for a natural looking streambed.

Project: TCU Amon G. Carter Stadium Redevelopment

Location: Fort Worth, TX

BLC: Texas Bomanite

Nature of Business: Replicate a riverbed

Only Bomanite architectural concrete provides the beauty of natural stone with the durability and affordability of concrete. With more than 200 creative patterns and an endless palette of colors, Bomanite offers an unmatched range of innovative design options to turn ordinary concrete into something extraordinary. *Realize the possibilities with Bomanite Imprint Systems.*

IN-Progress
