Experience

What Makes Us Different?

Innovative systems in the hands of highly creative, skilled craftsmen translate to extraordinary architectural concrete paving and flooring solutions. Bomanite partners exclusively with a worldwide network of experienced and specially trained concrete professionals dedicated to the highest

standards of quality and service. These specialists and Bomanite—the company that invented the imprinted concrete process more than a half-century ago—form an unbeatable, unique team.

Reputation For Quality

Quality products installed by quality people. Other companies sell their products and tools to any concrete contractor. Not Bomanite. Only Bomanite licensees have access to Bomanite products, systems and tools. This is the only way to maintain quality and it's worked for us for fifty years.

This exclusive network of specially trained, highly skilled licensed Bomanite craftsmen offer something that your local installer can't match. Experience. Consistency. Training. Service. Support.

Global Network

Each licensee has access to the resources of hundred of other creative, qualified Bomanite licensees around the world. Think of us as a network of solutions across the globe sharing ideas and delivering the same consistent look for your projects whether it's on the east or west coast. These resources and support system ensure that you're hiring the most qualified concrete contractor in the industry.

Total Project Capability

From conceptual stage and specification development right through to a customized maintenance program, Bomanite professionals bring creativity and expertise right to your doorstep. Three distinct Bomanite product lines

ed

deliver the best possible combination of design options for your next project.

Bomanite ~ our original colored, textured and imprinted decorative architectural concrete system.

Bomanite Toppings Systems ~ Patène Arctectura; a specialty coloration system for creative flooring and paving; Bomanite Thin-Set, stampable 3/8" overlay that's perfect over new or existing surfaces and Micro-Top by Bomanite; a micro-thin topping that provides limitless color combinations and graphic designs to transform horizontal or vertical surfaces into works of art.

Bomanite Custom Polishing System ~ Patented finishing system for concrete floors and counters, leaving behind a lustrous, smooth finish similar to the look of polished granite.

Continual Training and Education

Bomanite University represents our commitment to continuing education – education that develops the skills and qualifications of our licensees thorough in-depth technical trainings and business management workshops. This on-going commitment to learning provides Bomanite licensees with the knowledge and expertise to manage a solid business and install a superior product. All licensed Bomanite contractors are given the most extensive technical education program in the industry. And it shows in every installation—a reflection of the long-standing Bomanite tradition of innovation, service and expertise. Continual technical training on the latest processes, systems and techniques puts Bomanite contractors ahead of the pack.
