FEATURED PROJECT: BOMANITE MICRO-TOP ST AT THE COLORADAN

Built by Coloradans, for Coloradans. The Coloradan, a mixed-use luxury condominium development at Denver Union Station sits in a prime location. It offers a place for residents to live, work, and play. The layout of the outdoor spaces reflects the idea that the Coloradan is built for people who enjoy an active outdoor lifestyle but do not want to give up the quality of urban living. The project features restaurants and retail at the ground floor as well as three amenity decks for the residents. Landscape Architect, Dig Studio designed the ground level streetscape to integrate and enhance the existing rail terminal. The 5th-floor amenity deck serves private terraces as well as a community garden, which features a harvest table, sink, and serving area alongside an orchard of fruit bearing trees. The 18th floor houses the community fire pit and pool deck; the heated lap pool and spa allow residents to enjoy Colorado's weather all year long.... [READ MORE](#)

DID YOU KNOW...BOMANITE TOPPING SYSTEMS CAN TRANSFORM PLAIN GRAY CONCRETE?

Bomanite Toppings Systems can refurbish old, worn out surfaces and turn them into new and exciting expanses of color, pattern and texture. The Bomanite Toppings Systems can be used on interior or exterior, horizontal or vertical pourings. New construction, where complex design and color choices require costly multiple forming and pouring phases, benefits from the Bomanite Toppings Systems' inexpensive and time saving application methods. With the tight deadlines and budget constraints often faced by architects and designers, Bomanite Toppings Systems are the perfect solution for any project.
