

REALIZE THE POSSIBILITIES...

Bomanite® IMPRINT SYSTEMS

BOMANITE ARCHITECTURAL CONCRETE NEWS : VOLUME 19.09

Bomanite Imprint Systems are cast-in-place concrete flooring & paving that adds a distinctive architectural touch to any project, together with the durability to stand up to the toughest traffic loads and environmental conditions. For over six decades, Bomanite Imprint Systems have offered homeowners and design professionals a virtually limitless palette of colors, textures, and patterns - at a fraction of the cost of traditional materials. Choose from many natural textures including slate, granite, limestone, sandstone, cobblestone and used brick. When you specify architectural concrete, accept no substitutes.

THE LATEST NEWS

FEATURED PROJECT: CANOBIE LAKE PARK USES BOMANITE IMPRINT FOR CASTAWAY ISLAND

Canobie Lake Park is New England's Amusement Park known for its FUN! Realizing the need to create more FUN. Canobie Lake Park's Castaway Island underwent a large expansion. The Tiki resort-like atmosphere now features a wave pool, 60-foot water slides, a Tidal River, a Rain Fortress, a kid friendly lagoon, a Caribbean inspired restaurant with tiki bar and private cabana rentals that include a television, refrigerator and lockers.

This 100 year old family operated park has been keeping up with the times with renovations and updates throughout the years. Bomanite licensee, Harrington Bomanite has been a part of those additions for more than 30 years. Harrington Bomanite has installed so many upgrades and enhancements throughout the park and was presented with its greatest challenge of the "Tidal River Project" an addition to the 45,000 square foot Castaway Island expansion. The overall renovation using the Bomanite Imprint Systems included multiple Bomanite stamped concrete patterns and color hardener and release agent colors installed as the decking, plaza, restrooms and water areas... FEATURED PRODUCT: BOMANITE RELEASE AGENT

Bomanite Release Agent is a dry blend of chemical powders and color pigments designed for use in the Bomacron process to allow the clean release of Bomacron texturing tools from the concrete surface. In addition to providing a clean release, it also adds color variation and additional highlights to the textured surface, thus providing the attractive two-color look which is part of most Bomacron installations. Bomanite Release Agent is applied by specially licensed, trained and equipped Bomanite licensees.

Bomanite Liquid Release is a clear, non-pigmented solvent with a pleasant bubble gum scent. Bomanite Liquid Release is used for releasing Bomacron imprinting tools from the concrete surfaces and Bomanite Thin-Set, while at the same time serving as an alternative to Bomanite Release Agent when pigmented powders are prohibitive. Bomanite Liquid Release can be utilized for both interior and exterior applications, providing a fast-track imprinting option. Bomanite Liquid Release will not leave a residue on the imprinted surface and can be used in conjunction with Bomanite Chemical Stain, Bomanite Con-Color and Bomanite Topical Stain.
