

Bomanite®

Your Single Source For Innovative Architectural Concrete Solutions

PATTERNS

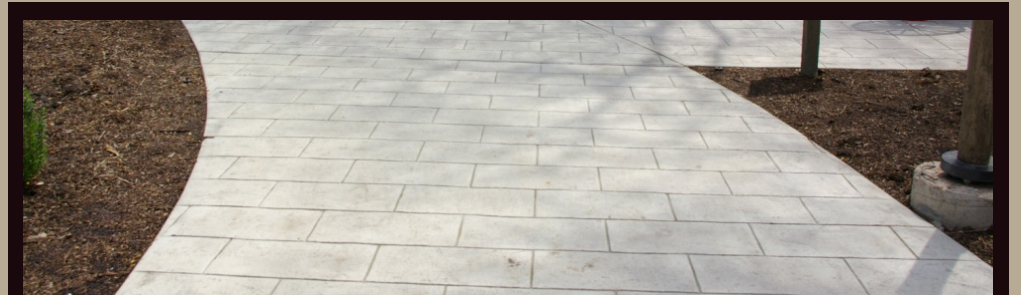

The Bomaron Running Bond Sandblast Limestone Pattern can be used in a variety of applications from outdoor driveways to residential walkways and shopping plazas. The pattern encompasses a standard 24" x 12" rectangular size alternating brick look but with a sandy textured finish. The Limestone Sandblast Texture is the same texture as the Limestone but with a lightly sandblasted face creating a slightly more angular feel with a uniform sandstone texture with minimal depth of relief and no veining. The Running Bond Sandblast Limestone Tool can be used in conjunction with other coordinating patterns for an interesting separation of areas.

Bomanite adds a unique statement of style and personality to virtually any surface, perfect for both indoor and out that is versatile enough to complement a wide variety of architectural styles.

Only Bomanite architectural concrete provides the beauty of natural stone with the durability and affordability of concrete. With more than 200 creative patterns and an endless palette of colors, Bomanite offers an unmatched range of innovative design options to turn ordinary concrete into something extraordinary.

Realize the possibilities with Bomanite Imprint Systems.
