PATTERNS

BASKETWEAVE BOARDWALK

The Custom Basketweave Boardwalk pattern was created for the Portola Hotel plaza and walkways, perfect for outdoor events or anywhere that typical wood is desired without the maintenance. Bringing together the beauty of hardwood flooring and durability of concrete the Basketweave Boardwalk wood grain texture has a minimal to moderate depth of relief that can be colored and stained to resemble traditional recycled barn board planking or a newly placed wood deck. Bomanite Sand Color Hardener with a Bomanite Sunset Gray Release Agent were selected to achieve a coastal weathered surface. Individual planks are 6.5" wide.

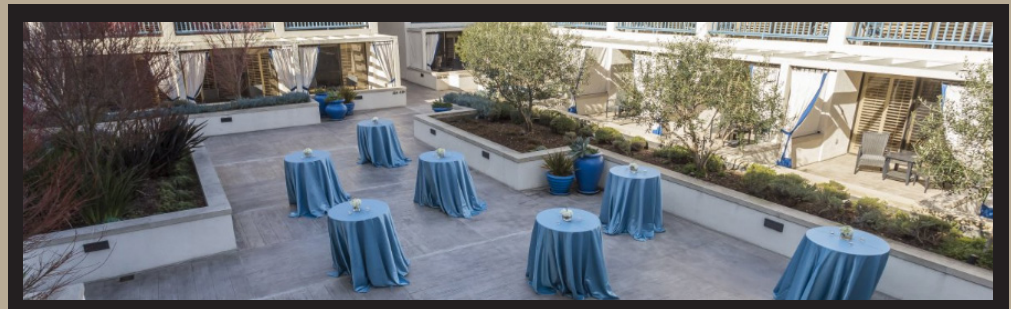

Custom Patterns may include company logos, graphics, textures and patterns to compliment an existing design or create a one of a kind look. Whatever the desire may be Bomanite Licensed Imprint installers have the resources to achieve what others may consider unachievable. Bomanite licensees provide better overall quality with far more design possibilities.
