What Can You Imagine?

Imagine

Custom Color, Custom Made

Imagine concrete flooring and paving innovative enough to transform expanses of plain gray concrete into beautiful and appealing spaces. With Bomanite Thin-Set, you can turn damaged concrete floors and old paving areas into “new” colored and imprinted surfaces. Old patios can look refreshing, worn drives dazzling and new with the help of this amazing restorative system. With hundreds of creative patterns and an endless palette of colors, let Bomanite Thin-Set unleash the potential that lies right beneath your feet.

TOPPING SYSTEMS

THIN-SET

REALIZE The Possibilities.

Infusing Quality and Design

Bomanite Thin-Set is a specially formulated, polymer-modified topping system applied at a thickness of approximately 3/8-inch. A great design option for virtually any structurally sound surface, old or new, Bomanite Thin-Set offers all the durability, cost-effectiveness, and ease of maintenance decorative concrete has to offer. Bomanite Thin-Set is one more way we bring you quality without compromise.

Turn New or Existing Concrete Spaces Into Beautiful Places

Bomanite Thin-Set is the perfect design solution for all renovation and restoration needs. Without needing to remove the existing surface, Thin-Set can transform the old and worn into fresh and striking. From dilapidated public spaces, older retail centers to commercial offices, restaurants to hotels, theme parks to municipal parks, schools to museums, practically any surface will benefit from this durable facelift. Bomanite Thin-Set transforms surfaces at a fraction of the cost of removal and replacement of installation of similar tile, brick or stone.

Thin Is In

Call today and see how Bomanite Thin-Set fits into your design needs. Bomanite Toppings Franchise Partners in more than 30 countries worldwide exclusively install Bomanite Thin-Set. Call the highly skilled, specially trained and licensed Bomanite Franchise Partner in your area today and see why Thin-Set could be the design solution you've been looking for.
